### The “Why”...

I'm running to advocate for the voices that make up UTLA and that members are reflected in decision making—Our union's strength begins at the school site and with the daily experiences of members across every role.

As your Harbor Area Director, I will continue to work to bring site-based concerns to the forefront and create space for all members to feel seen, supported, and empowered. This also goes hand in hand with building power from the school sites outward—with members leading the way.

I remain committed to the broader work of organizing for systemic change. A stronger UTLA means honoring our diverse roles while standing united in our collective power. Solidarity is not a word—it's an action. And that's what UTLA represents: action. We organize. We lift each other up. We stand together. We fight.
